## **Part One: General Provisions**

### **1 Scope and Application**

#### **Adoption**

- 1.1 These Classification Rules and Regulations are referred to throughout this document as the 'Classification Rules'. They have been prepared by World Para Ice Hockey to implement the requirements of the 2015 IPC Athlete Classification Code and International Standards.
- 1.2 The Classification Rules have been adopted by World Para Ice Hockey on 1 July 2017.
- 1.3 These Classification Rules refer to a number of Appendices. These Appendices form an integral part of the Classification Rules.
- 1.4 These Classification Rules form part of the World Para Ice Hockey Rules and Regulations.
- 1.5 The Classification Rules are supplemented by a number of Classification forms that have been prepared to assist Athlete Evaluation. These forms are available from World Para Ice Hockey, and can be amended by World Para Ice Hockey from time to time.

#### **Classification**

- 1.6 Classification is undertaken to:
  - a) define who is eligible to compete in Para sport and consequently who has the opportunity to reach the goal of becoming a Paralympic Athlete; and
  - b) group Athletes into Sport Classes which aim to ensure that the impact of Impairment is minimised and sporting excellence determines which Athlete or team is ultimately victorious.

#### **Application**

- 1.7 These Classification Rules apply to all Athletes and Athlete Support Personnel who are registered and/or licensed with World Para Ice Hockey, and/or participate in any Events or Competitions organised, authorised or recognised by World Para Ice Hockey.

- 1.8 These Classification Rules must be read and applied in conjunction with all other applicable rules of World Para Ice Hockey, including but not limited to the sport technical rules of World Para Ice Hockey. In the event of any conflict between these Classification Rules and any other rules, the Classification Rules shall take precedence.

### **International Classification**

- 1.9 World Para Ice Hockey will only permit an Athlete to compete in an International Competition if that Athlete has been allocated a Sport Class (other than Sport Class Not Eligible) and designated with a Sport Class Status in accordance with these Classification Rules.
- 1.10 World Para Ice Hockey will provide opportunities for Athletes to be allocated a Sport Class and designated with a Sport Class Status in accordance with these Classification Rules at Recognised Competitions (or other such locations as defined by World Para Ice Hockey). World Para Ice Hockey will advise Athletes, National Bodies and National Paralympic Committees in advance as to such Recognised Competitions (or other such locations).

### **Interpretation and Relationship to Code**

- 1.11 References to an 'Article' mean an Article of these Classification Rules, references to an 'Appendix' mean an Appendix to these Classification Rules, and Capitalised terms used in these Classification Rules have the meaning given to them in the Glossary to these Classification Rules.
- 1.12 References to a 'sport' in these Classification Rules refer to both a sport and an individual discipline within a sport [e.g. mixed team competition, women's team competition].
- 1.13 The Appendices to these Classification Rules are part of these Classification Rules both of which may be amended, supplemented and/or replaced by the World Para Ice Hockey from time to time.
- 1.14 Headings used in these Classification Rules are used for convenience only and have no meaning that is separate from the Article or Articles to which they refer.
- 1.15 These Classification Rules are to be applied and interpreted as an independent text but in a manner that is consistent with the 2015 IPC Athlete Classification Code and the accompanying International Standards.

## **2 Roles and Responsibilities**

2.1 It is the personal responsibility of Athletes, Athlete Support Personnel, and Classification Personnel to familiarise themselves with all the requirements of these Classification Rules.

### **Athlete Responsibilities**

2.2 The roles and responsibilities of Athletes include to:

- c) be knowledgeable of and comply with all applicable policies, rules and processes established by these Classification Rules;
- d) participate in Athlete Evaluation in good faith;
- e) ensure when appropriate that adequate information related to Health Conditions and Eligible Impairments is provided and/or made available to World Para Ice Hockey;
- f) cooperate with any investigations concerning violations of these Classification Rules; and
- g) actively participate in the process of education and awareness, and Classification research, through exchanging personal experiences and expertise.

### **Athlete Support Personnel Responsibilities**

2.3 The roles and responsibilities of Athlete Support Personnel include to:

- a) be knowledgeable of and comply with all applicable policies, rules and processes established by these Classification Rules;
- b) use their influence on Athlete values and behaviour to foster a positive and collaborative Classification attitude and communication;
- c) assist in the development, management and implementation of Classification Systems; and
- d) cooperate with any investigations concerning violations of these Classification Rules.

### **Classification Personnel Responsibilities**

2.4 The roles and responsibilities of Classification Personnel include to:

- a) have a complete working knowledge of all applicable policies, rules and processes established by these Classification Rules;

- b) use their influence to foster a positive and collaborative Classification attitude and communication;
- c) assist in the development, management and implementation of Classification Systems, including participation in education and research; and
- d) cooperate with any investigations concerning violations of these Classification Rules.

## Part Two: Classification Personnel

### 3 Classification Personnel

- 3.1 Classification Personnel are fundamental to the effective implementation of these Classification Rules. World Para Ice Hockey will appoint a number of Classification Personnel, each of whom will have a key role in the organisation, implementation and administration of Classification for the World Para Ice Hockey.

#### Head of Classification

- 3.2 World Para Ice Hockey must appoint a Head of Classification. The Head of Classification is a person responsible for the direction, administration, co-ordination and implementation of Classification matters for World Para Ice Hockey.
- 3.3 If a Head of Classification cannot be appointed, World Para Ice Hockey may appoint another person, or group of persons collectively (provided such person or group of persons agrees to comply with the Classifier Code of Conduct), to act as the Head of Classification.
- 3.4 The Head of Classification is not required to be a certified Classifier.
- 3.5 The Head of Classification may delegate specific responsibilities and/or the transfer specific tasks to designated Classifiers, or other persons authorised by World Para Ice Hockey.
- 3.6 Nothing in these Classification Rules prevents the Head of Classification (if certified as a Classifier) from also being appointed as a Classifier and/or Chief Classifier.

#### Classifiers

- 3.7 A Classifier is a person authorised as an official and certified by the World Para Ice Hockey to conduct some or all components of Athlete Evaluation as a member of a Classification Panel.

#### Chief Classifiers

- 3.8 A Chief Classifier is a Classifier appointed to direct, administer, co-ordinate and implement Classification matters for a specific Competition or at such other location as defined by World Para Ice Hockey. In particular, a Chief Classifier may be required by World Para Ice Hockey to do the following:
- 3.8.1 identify those Athletes who will be required to attend an Evaluation Session;

- 3.8.2 supervise Classifiers to ensure that these Classification Rules are properly applied during Classification;
  - 3.8.3 manage Protests in consultation with World Para Ice Hockey; and
  - 3.8.4 liaise with the relevant Competition organisers to ensure that all travel, accommodation and other logistics are arranged in order that Classifiers may carry out their duties at the Competition.
- 3.9 A Chief Classifier may delegate specific responsibilities and/or transfer specific tasks to other appropriately qualified Classifiers, or other appropriately qualified World Para Ice Hockey officers or representatives, and/or appropriately qualified persons in the local organising committee of a Competition.

#### **Trainee Classifiers**

- 3.10 A Trainee Classifier is a person who is in the process of formal training by World Para Ice Hockey.
- 3.11 World Para Ice Hockey may appoint Trainee Classifiers to participate in some or all components of Athlete Evaluation under the supervision of a Classification Panel, to develop Classifier Competencies.

## **4 Classifier Competencies, Training and Certification**

- 4.1 A Classifier will be authorised to act as a Classifier if that Classifier has been certified by World Para Ice Hockey as having the relevant Classifier Competencies.
- 4.2 World Para Ice Hockey must provide training and education to Classifiers to ensure Classifiers obtain and/or maintain Classifier Competencies.
- 4.3 World Para Ice Hockey must specify and publish Classifier Competencies in a manner that is transparent and accessible. The Classifier Competencies must include that a Classifier has:
  - 4.3.1 a thorough understanding of these Classification Rules;
  - 4.3.2 an understanding of the sport(s) for which they seek certification to act as a Classifier, including an understanding of the technical rules of the sport(s);
  - 4.3.3 an understanding of the Code and the International Standards; and

- 4.3.4 a professional qualification(s), level of experience, skills and/or competencies in order to act as a Classifier for World Para Ice Hockey. These include that Classifiers must either:
- a) be a certified health professional in a field relevant to the Eligible Impairment category which World Para Ice Hockey at its sole discretion deems acceptable, such as a physician or physiotherapist for Athletes with a Physical Impairment; or
  - b) have an extensive coaching or other relevant background in the particular sport(s); or a recognised and reputable academic qualification which encompasses a requisite level of anatomical, biomechanical and sport-specific expertise, which World Para Ice Hockey at its sole discretion deems to be acceptable.
- 4.4 World Para Ice Hockey must establish a process of Classifier Certification by which Classifier Competencies are assessed. This process must include:
- 4.4.1 a process for the certification of Trainee Classifiers;
  - 4.4.2 quality assessment for the period of certification;
  - 4.4.3 a process for handling substandard performance, including options for remediation and/or withdrawal of certification; and
  - 4.4.4 a process for Re-certification of Classifiers.
- 4.5 World Para Ice Hockey must specify Entry-Level Criteria applicable to persons who wish to become Trainee Classifiers. World Para Ice Hockey will provide Entry-Level Education to Trainee Classifiers.
- 4.6 World Para Ice Hockey must provide Continuing Education to Classifiers for the purposes of Certification and Re-certification.
- 4.7 World Para Ice Hockey may provide that a Classifier is subject to certain limitations, including (but not limited to):
- 4.7.1 a limitation on the Impairment type for which a Classifier is certified to act as a Classifier;
  - 4.7.2 a limitation on the components of Athlete Evaluation that a Classifier is certified to conduct;
  - 4.7.3 a limitation on the level of Competition or Event that a Classifier is authorised to act as a Classifier;

- 4.7.4 the maximum time that a Classifier Certification is valid;
- 4.7.5 that Classifier Certification is subject to review within a specific time frame by reference to the Classifier Competencies;
- 4.7.6 that a Classifier may lose Classifier Certification if World Para Ice Hockey is not satisfied that the Classifier possesses the required Classifier Competencies; and/or
- 4.7.7 that a Classifier may regain Classifier Certification if World Para Ice Hockey is satisfied that the Classifier possesses the required Classifier Competencies.

## **5 Classifier Code of Conduct**

- 5.1 The integrity of Classification in World Para Ice Hockey depends on the conduct of Classification Personnel. World Para Ice Hockey has therefore adopted a set of professional conduct standards referred to as the 'Classifier Code of Conduct'.
- 5.2 All Classification Personnel must comply with the Classifier Code of Conduct.
- 5.3 Any person who believes that any Classification Personnel may have acted in a manner that contravenes the Classifier Code of Conduct must report this to World Para Ice Hockey.
- 5.4 If World Para Ice Hockey receives such a report it will investigate the report and, if appropriate, take disciplinary measures.
- 5.5 World Para Ice Hockey has discretion to determine whether or not a Classifier has an actual, perceived and/or potential conflict of interest.

## Part Three: Athlete Evaluation

### 6 General Provisions

- 6.1 World Para Ice Hockey has specified in these Classification Rules the process, assessment criteria and methodology whereby Athletes will be allocated a Sport Class and designated a Sport Class Status. This process is referred to as Athlete Evaluation.
- 6.2 Athlete Evaluation encompasses a number of steps and these Classification Rules therefore include provisions regarding:
- 6.2.1 an assessment of whether or not an Athlete has an Eligible Impairment for the sport;
  - 6.2.2 an assessment of whether an Athlete complies with Minimum Impairment Criteria for the sport; and
  - 6.2.3 the allocation of a Sport Class (and designation of a Sport Class Status) depending on the extent to which an Athlete is able to execute the specific tasks and activities fundamental to the sport.

### 7 Eligible Impairment

- 7.1 Any Athlete wishing to compete in a sport governed by World Para Ice Hockey must have an Eligible Impairment and that Eligible Impairment must be Permanent.
- 7.2 Appendix One of these Classification Rules specify the Eligible Impairment(s) an Athlete must have in order to compete in a sport governed by World Para Ice Hockey.
- 7.3 Any Impairment that is not listed as an Eligible Impairment in Appendix One is referred to as a Non-Eligible Impairment. Appendix Two includes examples of Non-Eligible Impairments.

#### Assessment of Eligible Impairment

- 7.4 World Para Ice Hockey must determine if an Athlete has an Eligible Impairment.
- 7.4.1 In order to be satisfied that an Athlete has an Eligible Impairment, World Para Ice Hockey may require any Athlete to demonstrate that he or she has an Underlying Health Condition. Appendix Two lists examples of Health Conditions that are not Underlying Health Conditions.

- 7.4.2 The means by which World Para Ice Hockey determines that an individual Athlete has an Eligible Impairment is at the sole discretion of World Para Ice Hockey. World Para Ice Hockey may consider that an Athlete's Eligible Impairment is sufficiently obvious and therefore not require evidence that demonstrates the Athlete's Eligible Impairment.
- 7.4.3 If in the course of determining if an Athlete has an Eligible Impairment World Para Ice Hockey becomes aware that the Athlete has a Health Condition, and believes that the impact of that Health Condition may be that it is unsafe for that Athlete to compete or there is a risk to the health of the Athlete (or other Athletes) if that Athlete competes, it may designate the Athlete as Classification Not Completed (CNC) in accordance with Article 10 of these Classification Rules. In such instances World Para Ice Hockey will explain the basis of its designation to the relevant National Body and/or National Paralympic Committee.
- 7.5 An Athlete must (if requested to do so) supply World Para Ice Hockey with Diagnostic Information that must be provided as follows:
- 7.5.1 The relevant National Body and/or National Paralympic Committee must submit a Medical Diagnostics Form to World Para Ice Hockey, upon completing the registration of an Athlete.
- 7.5.2 The Medical Diagnostics Form must be completed in English and dated and signed by a certified medical doctor.
- 7.5.3 The Medical Diagnostic Form must be submitted with supportive Diagnostic Information if required by World Para Ice Hockey.
- 7.6 World Para Ice Hockey may require an Athlete to re-submit the Medical Diagnostics Form (with necessary supportive Diagnostic Information) if the World Para Ice Hockey at its sole discretion considers the Medical Diagnostic Form and/or the Diagnostic Information to be incomplete or inconsistent.
- 7.7 If World Para Ice Hockey requires an Athlete to provide Diagnostic Information it may consider the Diagnostic Information itself, and/or may appoint an Eligibility Assessment Committee to do so.
- 7.8 The process by which an Eligibility Assessment Committee is formed and considers Diagnostic Information is as follows:

- 7.8.1 The Head of Classification will notify the relevant National Body or National Paralympic Committee that Diagnostic Information must be provided on behalf of the Athlete. The Head of Classification will explain what Diagnostic Information is required, and the purposes for which it is required.
- 7.8.2 The Head of Classification will set timelines for the production of Diagnostic Information.
- 7.8.3 The Head of Classification will appoint an Eligibility Assessment Committee. The Eligibility Assessment Committee must, if practicable, be comprised of the Head of Classification and at least two other experts with appropriate medical qualifications. All members of the Eligibility Assessment Committee must sign confidentiality undertakings.
- 7.8.4 If the Head of Classification believes that he or she does not hold the necessary competencies to assess the Diagnostic Information, he or she will not participate in the review of the Diagnostic Information, but will assist the Eligibility Assessment Committee.
- 7.8.5 Wherever possible all references to the individual Athlete and the source(s) of the Diagnostic Information should be withheld from the Eligibility Assessment Committee. Each member of the Eligibility Assessment Committee will review the Diagnostic Information and decide whether such information establishes the existence of an Eligible Impairment.
- 7.8.6 If the Eligibility Assessment Committee concludes that the Athlete has an Eligible Impairment the Athlete will be permitted to complete Athlete Evaluation with a Classification Panel.
- 7.8.7 If the Eligibility Assessment Committee is not satisfied that the Athlete has an Eligible Impairment the Head of Classification will provide a decision to this effect in writing to the relevant National Body or National Paralympic Committee. The National Body or National Paralympic Committee will be given an opportunity to comment on the decision and may provide further Diagnostic Information to the Eligibility Assessment Committee for review. If the decision is subsequently revised, the Head of Classification will inform the National Body or National Paralympic Committee.

- 7.8.8 If the decision is not changed, the Head of Classification will issue a final decision letter to the National Body or National Paralympic Committee and the Athlete will be allocated Sport Class Not Eligible (NE) in accordance with the provisions of Article 16.3 of these Classification Rules
- 7.8.9 The Eligibility Assessment Committee may make its decisions by a majority. If the Head of Classification is part of the Eligibility Assessment Committee, he or she may veto any decision if he or she does not agree that the Diagnostic Information supports the conclusion that the Athlete has an Eligible Impairment.
- 7.9 World Para Ice Hockey may delegate one or more of the functions described above to a Classification Panel.

## **8 Minimum Impairment Criteria**

- 8.1 An Athlete who wishes to compete in a sport must have an Eligible Impairment that complies with the relevant Minimum Impairment Criteria for that sport.
- 8.2 World Para Ice Hockey has set Minimum Impairment Criteria to ensure that an Athlete's Eligible Impairment affects the extent to which an Athlete is able to execute the specific tasks and activities fundamental to the sport.
- 8.3 Appendix One of these Classification Rules specify the Minimum Impairment Criteria applicable to each sport and the process by which an Athlete's compliance with Minimum Impairment Criteria is to be assessed by a Classification Panel as part of an Evaluation Session.
- 8.4 Any Athlete who does not comply with the Minimum Impairment Criteria for a sport must be allocated Sport Class Not Eligible (NE) for that sport.
- 8.5 A Classification Panel must assess whether or not an Athlete complies with Minimum Impairment Criteria. This will take place as part of an Evaluation Session. Prior to participating in an Evaluation Session, an Athlete must first satisfy the World Para Ice Hockey that he or she has an Eligible Impairment.
- 8.6 In relation to the use of Adaptive Equipment, World Para Ice Hockey has set Minimum Impairment Criteria as follows:

- 8.6.1 for Eligible Impairments, Minimum Impairment Criteria must *not* consider the extent to which the use of Adaptive Equipment might affect how the Athlete is able to execute the specific tasks and activities fundamental to the sport.

## 9 Sport Class

- 9.1 A Sport Class is a category defined by World Para Ice Hockey in these Classification Rules, in which Athletes are grouped by reference to the impact of an Eligible Impairment on their ability to execute the specific tasks and activities fundamental to a sport.
- 9.1.1 An Athlete who does not have an Eligible Impairment or does not comply with the Minimum Impairment Criteria for a sport must be allocated Sport Class Not Eligible (NE) for that sport in accordance with the provisions of Article 16 of these Classification Rules.
- 9.1.2 An Athlete who complies with the Minimum Impairment Criteria for a sport must be allocated a Sport Class (subject to the provisions in these Classification Rules concerning Failure to Attend Athlete Evaluation and Suspension of Athlete Evaluation).
- 9.1.3 Except for the allocation of Sport Class Not Eligible (NE) by World Para Ice Hockey (in accordance with Article 16.1), the allocation of a Sport Class must be based solely on an evaluation by a Classification Panel of the extent to which the Athlete's Eligible Impairment affects the specific tasks and activities fundamental to sport. This evaluation must take place in a controlled non-competitive environment, which allows for the repeated observation of key tasks and activities.
- 9.2 Appendix One of these Classification Rules specify the assessment methodology and assessment criteria for the allocation of a Sport Class and the designation of Sport Class Status.

## **10 Classification Not Completed**

- 10.1 If at any stage of Athlete Evaluation World Para Ice Hockey or a Classification Panel is unable to allocate a Sport Class to an Athlete, the Head of Classification or the relevant Chief Classifier may designate that Athlete as Classification Not Completed (CNC).
- 10.2 The designation Classification Not Completed (CNC) is not a Sport Class and is not subject to the provisions in these Classification Rules concerning Protests. The designation Classification Not Completed (CNC) will however be recorded for the purpose of the World Para Ice Hockey Classification Master List.
- 10.3 An Athlete who is designated as Classification Not Completed (CNC) may not compete in the sport of World Para Ice Hockey. See Article 28 for remediation.

## Part Four: Athlete Evaluation and the Classification Panel

### 11 The Classification Panel

- 11.1 A Classification Panel is a group of Classifiers appointed by World Para Ice Hockey to conduct some or all of the components of Athlete Evaluation including as part of an Evaluation Session.

#### General Provisions

- 11.2 A Classification Panel must be comprised of at least of two certified Classifiers. In exceptional circumstances a Chief Classifier may provide that a Classification Panel comprise only one Classifier, subject to that Classifier holding a valid medical qualification.
- 11.3 A Trainee Classifier may be part of a Classification Panel in addition to the required number of certified Classifiers, and may participate in Athlete Evaluation.

### 12 Classification Panel Responsibilities

- 12.1 A Classification Panel is responsible for conducting an Evaluation Session. As part of the Evaluation Session the Classification Panel must:
- 12.1.1 assess whether an Athlete complies with Minimum Impairment Criteria for the sport;
  - 12.1.2 assess the extent to which an Athlete is able to execute the specific tasks and activities fundamental to the sport; and
  - 12.1.3 conduct (if required) Observation in Competition.
- 12.2 Following the Evaluation Session the Classification Panel must allocate a Sport Class and designate a Sport Class Status, or designate Classification Not Completed (CNC).
- 12.3 Prior to the Evaluation Session, the assessment as to whether an Athlete has an Eligible Impairment must be undertaken by World Para Ice Hockey, unless World Para Ice Hockey requests this to be undertaken by a Classification Panel.
- 12.4 The Evaluation Session must take place in a controlled non-competitive environment that allows for the repeated observation of key tasks and activities.

- 12.4.1 Although other factors such as low fitness level, poor technical proficiency and aging may also affect the fundamental tasks and activities of the sport, the allocation of Sport Class must not be affected by these factors.
- 12.5 An Athlete who has a Non-Eligible Impairment and an Eligible Impairment may be evaluated by a Classification Panel on the basis of the Eligible Impairment, provided the Non-Eligible Impairment does not affect the Classification Panel's ability to allocate a Sport Class.
- 12.6 The Sport Class allocated to the Athlete will be in accordance with the processes specified in Appendix One .

## **13 Evaluation Sessions**

- 13.1 This Article applies to all Evaluation Sessions.
- 13.2 The Athlete's National Body or National Paralympic Committee is responsible for ensuring that Athletes comply with their duties in relation to the provisions in this Article.
- 13.3 In respect of Athletes:
  - 13.3.1 Athletes have the right to be accompanied by a member of the Athlete's National Body or National Paralympic Committee when attending an Evaluation Session. The Athlete must be accompanied if the Athlete is a minor or has an Intellectual Impairment.
  - 13.3.2 The person chosen by the Athlete to accompany the Athlete at an Evaluation Session should be familiar with the Athlete's Impairment and sport history.
  - 13.3.3 The Athlete and accompanying person must acknowledge the terms of the Athlete Evaluation Agreement Form as specified by World Para Ice Hockey.
  - 13.3.4 The Athlete must verify his or her identity to the satisfaction of the Classification Panel, by providing a document such as a passport, ID card, World Para Ice Hockey license card or event accreditation.
  - 13.3.5 The Athlete must disclose the use of any medication and/or medical device/implant to the Classification Panel.
  - 13.3.6 The Athlete must comply with all reasonable instructions given by a Classification Panel.

- 13.4 In respect of the Classification Panel:
- 13.4.1 The Classification Panel may request that an Athlete provide medical documentation relevant to the Athlete's Eligible Impairment if the Classification Panel believes that this will be necessary in order for it to allocate a Sport Class.
  - 13.4.2 The Classification Panel will conduct Evaluation Sessions in English unless otherwise stipulated by World Para Ice Hockey. If the Athlete requires an interpreter, a member of the Athlete's National Body or National Paralympic Committee will be responsible for arranging for an interpreter. The interpreter is permitted to attend the Evaluation Session in addition to the person referred to in Article 13.3.1 above.
  - 13.4.3 The Classification Panel may at any stage seek medical, technical or scientific opinion(s), with the agreement of the Head of Classification and/or a Chief Classifier if the Classification Panel feels that such opinion(s) is necessary in order to allocate a Sport Class.
  - 13.4.4 In addition to any opinion(s) sought in accordance with Article 13.4.3, a Classification Panel may only have regard to evidence supplied to it by the relevant Athlete, National Body, National Paralympic Committee and World Para Ice Hockey (from any source) when allocating a Sport Class.
  - 13.4.5 The Classification Panel may make, create or use video footage and/or other records to assist it when allocating a Sport Class.

## 14 Sport Class Status

- 14.1 If a Classification Panel allocates a Sport Class to an Athlete, it must also designate a Sport Class Status. Sport Class Status indicates whether or not an Athlete will be required to undertake Athlete Evaluation in the future; and if the Athlete's Sport Class may be subject to Protest.
- 14.2 The Sport Class Status designated to an Athlete by a Classification Panel at the conclusion of an Evaluation Session will be one of the following:
  - Confirmed (C)
  - Review (R)
  - Review with a Fixed Review Date (FRD)

### **Sport Class Status New**

- 14.3 An Athlete is allocated Sport Class Status New (N) by World Para Ice Hockey prior to attending the Athlete's first Evaluation Session. An Athlete with Sport Class Status New (N) must attend an Evaluation Session prior to competing at any International Competition, unless World Para Ice Hockey specifies otherwise.

### **Sport Class Status Confirmed**

- 14.4 An Athlete will be designated with Sport Class Status Confirmed (C) if the Classification Panel is satisfied that both the Athlete's Eligible Impairment and the Athlete's ability to execute the specific tasks and activities fundamental to the sport are and will remain stable.
- 14.4.1 An Athlete with Sport Class Status Confirmed (C) is not required to undergo any further Athlete Evaluation (save pursuant to the provisions in these Classification Rules concerning Protests (Article 17), Medical Review (Article 29) and changes to Sport Class criteria (Article 14.7)).
- 14.4.2 A Classification Panel that consists of only one Classifier may not designate an Athlete with Sport Class Status Confirmed (C) but must designate the Athlete with Sport Class Status Review (R).

### **Sport Class Status Review**

- 14.5 An Athlete will be designated Sport Class Status Review (R) if the Classification Panel believes that further Evaluation Sessions will be required.
- 14.5.1 A Classification Panel may base its belief that further Evaluation Sessions will be required based on a number of factors, including but not limited to situations where the Athlete has only recently entered Competitions sanctioned or recognised by World Para Ice Hockey; has a fluctuating and/or progressive Impairment/Impairments that is/are permanent but not stable; and/or has not yet reached full muscular skeletal or sports maturity.
- 14.5.2 An Athlete with Sport Class Status Review (R) must complete Athlete Evaluation prior to competing at any subsequent International Competition, unless World Para Ice Hockey specifies otherwise.

### **Sport Class Status Review with Fixed Review Date**

- 14.6 An Athlete may be designated Sport Class Status Review with a Fixed Review Date (FRD) if the Classification Panel believes that further Athlete Evaluation will be required but will not be necessary before a set date, being the Fixed Review Date.

- 14.6.1 An Athlete with Sport Class Status Review with a Fixed Review Date (FRD) will be required to attend an Evaluation Session at the first opportunity after the relevant Fixed Review Date. For example, an Athlete with Sport Class Status Review with a Fixed Review Date of 2018 will be required to attend an Evaluation Session at the first opportunity after 1 July 2018.
- 14.6.2 An Athlete who has been allocated Sport Class Status Review with a Fixed Review Date (FRD) may not attend an Evaluation Session prior to the relevant Fixed Review Date save pursuant to a Medical Review Request and/or Protest.
- 14.6.3 A Classification Panel that consists of only one Classifier may not designate an Athlete with Sport Class Status Review with a Fixed Review Date (FRD) but must designate the Athlete with Sport Class Status Review (R).

#### **Changes to Sport Class Criteria**

- 14.7 If World Para Ice Hockey changes any Sport Class criteria and/ or assessment methods defined in the Appendices to these Rules, then:
  - 14.7.1 World Para Ice Hockey may re-assign any Athlete who holds Sport Class Status Confirmed (C) with Sport Class Status Review (R) and require that the Athlete attend an Evaluation Session at the earliest available opportunity; or
  - 14.7.2 World Para Ice Hockey may remove the Fixed Review Date for any Athlete and require that the Athlete attend an Evaluation Session at the earliest available opportunity; and
  - 14.7.3 in both instances the relevant National Body or National Paralympic Committee shall be informed as soon as is practicable.

## **15 Notification**

## **Part Five: Sport Class Not Eligible**

### **16 Sport Class Not Eligible**

#### **General Provisions**

16.1 If World Para Ice Hockey determines that an Athlete:

16.1.1 has an Impairment that is not an Eligible Impairment; or

16.1.2 does not have an Underlying Health Condition,

World Para Ice Hockey must allocate that Athlete Sport Class Not Eligible (NE).

16.2 If a Classification Panel determines that an Athlete who has an Eligible Impairment does not comply with Minimum Impairment Criteria for a sport that Athlete must be allocated Sport Class Not Eligible (NE) for that sport.

#### **Absence of Eligible Impairment**

16.3 If World Para Ice Hockey determines that an Athlete does not have an Eligible Impairment, that Athlete:

16.3.1 will not be permitted to attend an Evaluation Session; and

16.3.2 will be allocated with Sport Class Not Eligible (NE) and designated with Sport Class Status Confirmed (C) by World Para Ice Hockey.

16.4 If another International Sport Federation has allocated an Athlete with Sport Class Not Eligible (NE) because the Athlete does not have an Eligible Impairment World Para Ice Hockey may likewise do so without the need for the process detailed in Article 7 of these Classification Rules.

16.5 An Athlete who is allocated Sport Class Not Eligible (NE) by World Para Ice Hockey or a Classification Panel (if delegated by World Para Ice Hockey) because that Athlete has

16.5.1 an Impairment that is not an Eligible Impairment; or

16.5.2 a Health Condition that is not an Underlying Health Condition;

has no right to request such determination be reviewed by a second Classification Panel and will not be permitted to participate in any sport.

### **Absence of Compliance with Minimum Impairment Criteria**

- 16.6 A second Classification Panel must review by way of a second Evaluation Session any Athlete who is allocated Sport Class Not Eligible (NE) on the basis that a Classification Panel determines that the Athlete does not comply with Minimum Impairment Criteria. This must take place as soon as is practicable.
- 16.6.1 Pending the second Evaluation Session the Athlete will be allocated Sport Class Not Eligible (NE) and designated Sport Class Status Review (R). The Athlete will not be permitted to compete before such re-assessment.
- 16.6.2 If the second Classification Panel determines the Athlete does not comply with Minimum Impairment Criteria (or if the Athlete declines to participate in a second Evaluation Session at the time set by the Chief Classifier); Sport Class Not Eligible (NE) will be allocated and the Athlete designated with Sport Class Status Confirmed (C).
- 16.7 If an Athlete makes (or is subject to) a Protest on a previously allocated Sport Class other than Not Eligible (NE) and is allocated Sport Class Not Eligible (NE) by a Protest Panel, the Athlete must be provided with a further and final Evaluation Session which will review the decision to allocate Sport Class Not Eligible (NE) made by the Protest Panel.
- 16.8 If a Classification Panel allocates Sport Class Not Eligible (NE) on the basis that it has determined that an Athlete does not comply with Minimum Impairment Criteria for a sport the Athlete may be eligible to compete in another sport, subject to Athlete Evaluation for that sport.
- 16.9 If an Athlete is allocated Sport Class Not Eligible (NE), this does not question the presence of a genuine Impairment. It is only a ruling on the eligibility of the Athlete to compete in the sport of World Para Ice Hockey.

## Part Six: Protests

### Protests

#### 17 Scope of a Protest

- 17.1 A Protest may only be made in respect of an Athlete's Sport Class. A Protest may not be made in respect of an Athlete's Sport Class Status.

- 19.2 If the outcome of Athlete Evaluation is published during a Competition (pursuant to Article 15 of these Classification Rules) a National Protest must be submitted within one (1) hour of that outcome being published. If the outcome of Athlete Evaluation is published following Observation in Competition a National Protest must be submitted within fifteen (15) minutes of that outcome being published.
- 19.3 If an Athlete is required by a Classification Panel to undergo Observation in Competition Assessment, a National Body or a National Paralympic Committee may make a Protest before or after First Appearance takes place. If a Protest is made before First Appearance takes place the Athlete must not be permitted to compete until the Protest has been resolved.

## 20 National Protest Procedure

- 20.3 If the Protest is dismissed the Chief Classifier must notify all relevant parties and provide a written explanation to the National Body or National Paralympic Committee as soon as practicable. The Protest Fee will be forfeited.
- 20.4 If the Protest is accepted:
- 20.4.1 the Protested Athlete's Sport Class must remain unchanged pending the outcome of the Protest but the Protested Athlete's Sport Class Status must immediately be changed to Review (R) unless the Protested Athlete's Sport Class Status is already Review (R);
  - 20.4.2 the Chief Classifier must appoint a Protest Panel to conduct a new Evaluation Session as soon as possible, which must be either at the Competition the Protest was made or at the next Competition; and

## **24 Provisions Where No Protest Panel is Available**

- 24.1 If a Protest is made at a Competition but there is no opportunity for the Protest to be resolved at that Competition:

### Athletes with Physical Impairment

#### 1 Eligible Impairment Types

Eligible Impairment	Examples of Health Conditions
<p><b>Impaired Muscle Power</b></p> <p>Athletes with Impaired Muscle Power have a Health Condition that either reduces or eliminates their ability to voluntarily contract their muscles in order to move or to generate force.</p>	<p>Examples of an Underlying Health Condition that can lead to Impaired Muscle Power include spinal cord injury (complete or incomplete, tetra-or paraplegia or paraparesis), muscular dystrophy, post-polio syndrome and spina bifida.</p>
<p><b>Limb Deficiency</b></p> <p>Athletes with Limb Deficiency have total or partial absence of bones or joints as a consequence of trauma.</p>	<p>Examples of an Underlying Health Condition that can lead to Limb Deficiency include: traumatic amputation, illness (for example amputation due to bone cancer) or congenital limb deficiency (for example dysmelia).</p>
<p><b>Leg Length Difference</b></p> <p>Athletes with Leg Length Difference have a difference in the length of their legs.</p>	<p>Examples of an Underlying Health Condition that can lead to Leg Length Difference include: dysmelia and congenital or traumatic disturbance of limb growth.</p>
<p><b>Hypertonia</b></p> <p>Athletes with hypertonia have an increase in muscle tension and a reduced ability of a muscle to stretch caused by damage to the central nervous system.</p>	<p>Examples of an Underlying Health Condition that can lead to Hypertonia include cerebral palsy, traumatic brain injury and stroke.</p>
<p><b>Ataxia</b></p> <p>Athletes with Ataxia have uncoordinated movements caused by damage to the central nervous system.</p>	<p>Examples of an Underlying Health Condition that can lead to Ataxia include: cerebral palsy, traumatic brain injury, stroke and multiple</p>

	sclerosis.
<b>Athetosis</b> Athletes with Athetosis have continual slow involuntary movements.	Examples of an Underlying Health Condition that can lead to Athetosis include cerebral palsy, traumatic brain injury and stroke.
<b>Impaired Passive Range of Movement</b> Athletes with Impaired Passive Range of Movement have a restriction or a lack of passive movement in one or more joints.	Examples of an Underlying Health Condition that can lead to Impaired Passive Range of Movement include arthrogryposis and contracture resulting from chronic joint immobilisation or trauma affecting a joint.

## 2 Minimum Impairment Criteria

- 2.1 The Sport of Para ice hockey currently has one Sport Class, which is defined by the Minimum Impairment Criteria in this Article.
- 2.2 For Para ice hockey, only Eligible Impairments defined in Appendix One article 1 that affect the lower limbs are considered in Athlete Evaluation.
- 2.3 Athletes must meet at least one of the following Minimum Impairment Criteria:

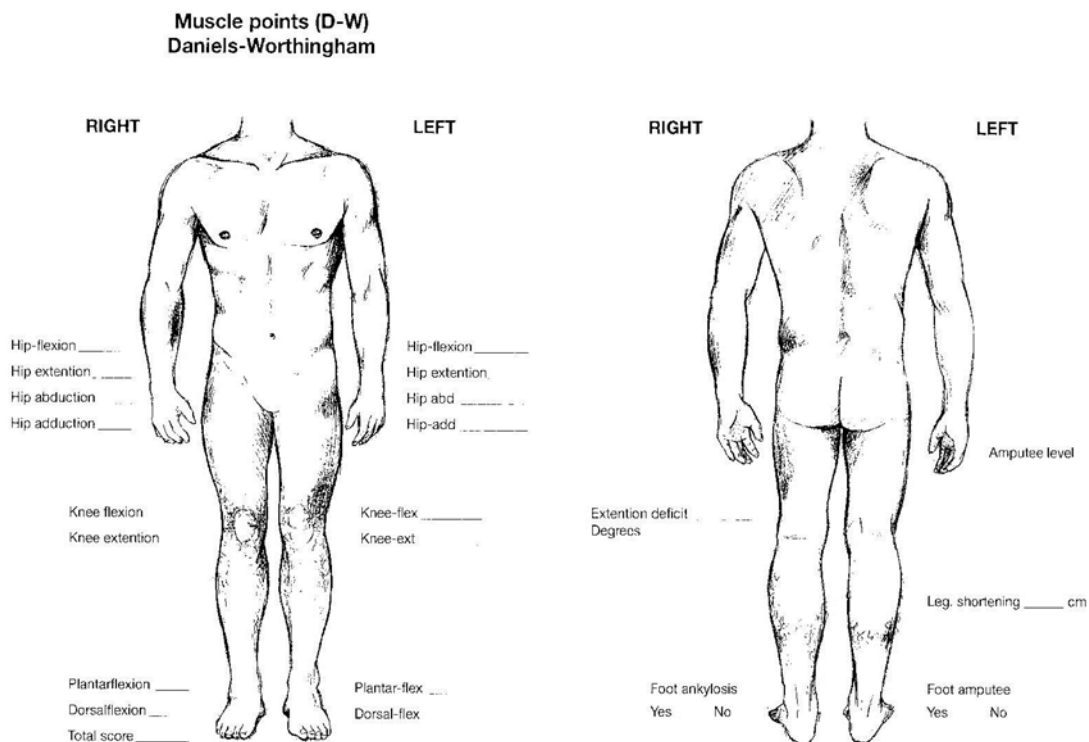

Impairment type	Minimum Impairment Criteria
Limb deficiency	Unilateral through ankle amputation (Symes amputation), including impairments that cause a similar loss of limb.
Impaired Muscle Power	Loss of 10 points in both lower limbs in the manual muscle testing described in Article 3.1.2 of Appendix One (normal score = 80).
Impaired Passive Range of Motion	Ankylosis in one ankle, or knee extension defect of at least 30 degrees.  (Athletes whose lower limb impairment is limited to loss of movement in the hip region only, will not be eligible to compete in World Para Ice Hockey).
Ataxia, athetosis,	Score of 3 or less (normal = 6) on the coordination tests

hypertonia	defined in Article 3.2, Appendix One.
Leg length difference	One leg must be at least 7 centimeters shorter than the other, as measured from the umbilicus to the highest point of the medial malleolus.

### 3 Assessment Methodology

#### 3.1 Manual Muscle Testing:

3.1.1 The below graphic illustrates the movements that must be tested by the Classifiers when conducting manual muscle testing:

3.1.2 Athletes will be subject to the muscle tests described in this article. The muscle testing techniques of manual examination by Daniels and Worthingham (8th edition) must be used with one modification; the scores 0, 1 and 2 of the Daniel and Worthingham scale are all captured as a score of 0.

<p>3.1.2.1 Hip flexion:</p>	
<p><b>Position:</b> Athlete sits with thighs fully supported on table, with the legs hanging over edge. Athlete may use hands for support.</p> <p><b>Classifier:</b> Standing next to the Athlete with hand on distal knee.</p> <p><b>Test:</b> Flex hip to end of range, holding against Classifier's resistance.</p> <p><b>Instruction:</b> Lift your leg off table and do not let me push it down.</p> <p><b>Scoring:</b></p> <ul style="list-style-type: none"> <li>▪ Grade 5 = Thigh clears table, athlete tolerates maximum resistance.</li> <li>▪ Grade 4 = Hip flexion holds against strong to moderate resistance, there may be some "give" at the end position.</li> <li>▪ Grade 3 = Athlete completes test range and holds the position without resistance.</li> </ul>	
<p>3.1.2.2 Hip extension:</p>	
<p><b>Position:</b> Athlete prone; if hip flexion contracture exist, then the modified test should be performed</p> <p><b>Classifier:</b> Standing at side of limb, opposite side. Hand providing resistance on the post leg just above the ankle.</p> <p><b>Test:</b> Athlete extends hip through entire available range of motion. Resistance is given straight down towards the floor.</p> <p><b>Instruction:</b> Lift the leg of the table as high as you can without bending the knee.</p> <p><b>Scoring:</b></p> <ul style="list-style-type: none"> <li>▪ Grade 5 = Athlete completes available range and holds test position against maximum resistance.</li> </ul>	

- Grade 4 = Athlete completes available range against strong to moderate resistance.
- Grade 3 = Completes range and holds the position without resistance.

### 3.1.2.3 Modified hip extension test for hip flexion contracture

**Position:** Athlete stands with hips flexed and places torso prone on the table.

**Classifier:** Standing at side of limb on opposite side. Hand placed over posterior thigh just above the knee, the opposite hand stabilizes the pelvis laterally to maintain posture.

**Test:** Athlete extends hip through available range, which is less with bent knee (tension in rectur femoris).

**Instruction:** Lift your foot of the floor as high as you can.

**Scoring:**

- Grade 5 = Completes available range of hip ext, holds against max resistance.
- Grade 4 = Completes available range of hip ext. Limb position can be held towards heavy to moderate resistance.
- Grade 3 = Completes available range and holds end position without resistance.

<p><b>3.1.2.4 Hip Abduction:</b></p> <p><u>Position:</u> Side lying with test leg uppermost. Slightly extended with pelvis rotated slightly forward, lower leg bent for stability.</p> <p><u>Classifier:</u> Standing behind Athlete, hand contoured across the lateral surface of knee. The other hand just proximal to the greater trochanter.</p> <p><u>Test:</u> Abduction through available range of motion without flexion or rotation of hip in either direction.</p> <p><u>Instruction:</u> Lift your leg and do not let me push it down.</p> <p><u>Scoring:</u></p> <ul style="list-style-type: none"> <li>▪ Grade 5 = Completes available range of motion and holds against maximal resistance.</li> <li>▪ Grade 4 = Completes available range of motion and holds against heavy to moderate resistance.</li> <li>▪ Grade 3 = Completes range of motion and holds end position without resistance.</li> </ul>	
<p><b>3.1.2.5 Hip Adduction:</b></p> <p><u>Position:</u> Side lying with test limb lower most resting on the table. Upper leg in 25 degrees of abduction, supported by the Classifier.</p> <p><u>Classifier:</u> Standing behind Athlete at knee level, the hand giving resistance to the test limb (lower most) is placed on the medial surface of the distal femur, just proximal to the knee joint. Resistance directed straight downward to the table.</p> <p><u>Test:</u> Adducts hip until the lower limb contacts the upper one.</p> <p><u>Instruction:</u> Lift your bottom leg towards the upper one and do not let it drop.</p> <p><u>Scoring:</u></p> <ul style="list-style-type: none"> <li>▪ Grade 5= Completes full range, holds against full resistance.</li> <li>▪ Grade 4 = Holds against strong to moderate resistance.</li> <li>▪ Grade 3 = Completes range of motion but takes no resistance.</li> </ul>	

<p>3.1.2.6      Knee extension:</p>	
<p><b>Position:</b> Short sitting, hand supporting under knee, other hand on ankle, do not hyperextend knee.</p> <p><b>Classifier:</b> Standing at side of limb to be tested, pressure over ankle in a downward direction.</p> <p><b>Test:</b> Extend through available range of motion but not beyond 0 degrees.</p> <p><b>Instruction:</b> Straighten your knee and do not let me bend it.</p> <p><b>Scoring:</b></p> <ul style="list-style-type: none"> <li>▪ Grade 5 = Holds end position against max resistance.</li> <li>▪ Grade 4 = Against strong to moderate resistance.</li> <li>▪ Grade 3 = Completes range and holds position without resistance.</li> </ul>

### 3.2 Assessment Methods for Athletes with Ataxia, Athetosis and/ or Hypertonia

University of Utah test	Activity Description	Abnormal (Score = 0)	Normal (Score = 1)
Foot Rapid Alternating Movements	The Athlete is in a seated position and taps her/his toes up and down on the Classifier's hand or the floor as quickly as he/she can.	Movements are slow and irregular with imprecise timing of agonist and antagonist muscle action.	Responses will be quick and remain consistently quick with regular timing. As many as 30 repetitions may be done in 15 seconds.

University of Utah test	Activity Description	Abnormal (Score = 0)	Normal (Score = 1)
Heel to shin	The Athlete is in the seated position and places her/his heel on the opposite knee, then runs the heel down the shin to the ankle and repeats knee to ankle slide quickly.	Athletes will demonstrate decreased speed of movement and lack of control.	Responses may show 50 repetitions possible in 30 seconds.
Toe to Finger	The Athlete is in a seated position and touches the Classifier's finger with his/her toe repetitively as the Classifier moves their finger to all four quadrants.	Athletes will demonstrate undershooting and/or overshooting of the target and the decomposition of movement with irregular and impaired timing and muscle activity.	Responses will be quick, repetitively correct and accurate and will not demonstrate movement decomposition.
Tandem Gait	The Athlete is asked to walk heel-to-toe along a line. This requires a narrow base of support and the Athlete to maintain balance over a 12cm width.	Athletes with midline ataxias have a difficult time with maintaining balance with tandem gait due to the narrow base of support.	Normal tandem gait is quick, steady and stable over the narrow base of support.
Jogging Straight	The Athlete jogs straight ahead for 15-20m.	Athletes with ataxia will deviate from a narrow base of support and may wobble.	Normal jogging has a regular, steady quick movement without decomposition.
Jogging Sideways	The Athlete jogs sideways and may skip and then do the jog with <ul style="list-style-type: none"> <li>a) crossover in the front and behind the lead leg called</li> <li>b) carioca for 15-20m.</li> </ul>	Athletes with ataxia will have decreased speed of movement and difficulty crossing over legs in front and back.	Normal sideways motion demonstrates stability along a line, crossover motion that is regular and quick without loss of balance.
